

Environmental Policy

Life Science Group Ltd (LSG) continues to act responsibly towards Customers, Staff, Suppliers and the Communities in which we trade; reflecting our ever increasing awareness over the effects of commerce on the environment. By being sensitive to our environmental responsibilities, LSG recognises this as a major challenge, both now, and into the future.

This commitment is communicated with the full support and enthusiasm of the Board to our employees - all of whom are accountable for the environmental impact of the Company.

Our Aims:

- To manage our activities, products and services with consideration for the environment and in a manner consistent with our values;
- To adhere to, and where possible, exceed, current legislation. We will endeavour to anticipate and participate in the evolution of best practice to meet new requirements and legislation;
- To identify, manage and monitor our significant environmental aspects;
- To purchase, where practicable, environmentally superior products and services from supply chain partners who have demonstrated a commitment to continual environmental performance improvement. Whenever possible, we use products from sustainable resources;
- To promote the use of energy efficient systems, and reflect this in our choice and redevelopment of warehouse and office operations and accommodation;
- To strive to minimise waste from our operations, and where possible, we re-use or recycle;
- To set targets and objectives for environmental performance improvement and to review these regularly;
- To support the development of employees and ensure that they all receive training appropriate to their role in implementing our environmental policy;
- To develop and maintain an Environmental Management System which conforms to BS8555;
- To provide a high quality, efficient service to our customers and stakeholders and engage in an open and transparent dialogue on how they can assist us to promote environmentally responsible practices.

This policy was agreed by the Board of LSG on 23rd July 2015

Jennifer Murray, Managing Director

John Norman, Director
